

### □ □ □ □ A Clean Water Beneficiary Woman

The Organization for Rehabilitation & Development in Amhara (ORDA) funded by Charity Water has been implementing WaSH Projects entitled 297 and 331 with a total budget of 2.2 Million USD (over 68 Million Birr) in 2019 and 2020 in North Shoa Zone of Amhara region, Ethiopia.

W/ro Tsige Shiferaw, aged 48, is a married and has seven children (4 boys and 3 girls). W/ro Tsige, a resident at Gendeber village in Chefanan Kebele, Angolana Tera Woreda, has been suffering from water shortages for many years.

In the past, residents used to get water from Chefe spring. However, after the spring dried up, the community traveled in the midst of night and queued up to fetch water from Chacha river. The developed spring that ORDA has built for the residents has served for the past 14 years and is now completely dried.
