

Audit Service

From ORDA Ethiopia huge development operations, it's possible to anticipate the magnitude of its resources, in terms of finance and logistics. Particularly in 2012, the organization mobilized 440.2 million Birr or \$25.62 million USD.

To protect its resources from abuse and misappropriate utilization, ORDA Ethiopia has exerted its best to ensure correct utilization of financial and non-financial resources and proper functionality of systems and procedures. The organization has designed appropriate strategies: building capacity of accountants, logistics officers and other concerned staff, regularly updating the auditing service, strengthening the existing post audit service through preventing errors and mis-utilization in advance and before they occur, and ensuring resources utilization based on the agreement made with funding organization.

Accordingly, it has established professional internal audit and inspection system and enabled it functional in order to ensure accountability and transparency across the organization.
